This is Ohio State
ONE UNIVERSITY
All your courses lead to an Ohio State degree.

REPUTATION MATTERS
Ohio State transcripts and diplomas receive recognition from around the world.

STUDENT RESEARCH
Research grants of up to $1,500 available to full-time students.

BIG TEN ATHLETICS
Students are eligible for discounted tickets to all Ohio State athletic events.

BY THE NUMBERS:

2396: Enrollment in 2014

$2000: Average scholarship award

Ohio State Newark was founded in 1957

225: acres on campus

40: Miles from Columbus campus

64: Ohio counties represented

50: Student organizations

31: Countries of origin represented

6: Varsity sports

14: Years the Theatre Department has entertained the community

Buildings including a gymnasium and 2 residence halls

Degree programs offered in their entirety

45: Members of the Newark campus Team Buckeye Peloton

1: Ohio State and its smaller campuses form One University
If you want the comfortable feeling of a small liberal arts college but need the educational resources of a major university, The Ohio State University at Newark is the place for you. Located in the scenic rolling hills of east-central Ohio, Ohio State Newark offers Ohio residents an affordable and convenient college education.

**Small Campus. Big Possibilities.**

**Classes are small.**
The average class size is 25. Students get to know their professors. You will have more one-on-one contact with your professor, giving you the opportunity to ask questions.

**Service is personal.**
Get individual attention and guidance from advisors that know your name. They provide the expertise and guidance that helps you stay on track for graduation.

**Professors are approachable.**
Known for teaching excellence, 100 percent of Ohio State Newark’s regular faculty have doctoral degrees. Take advantage of your professors’ expertise: select a mentor, collaborate on research, or get a letter of recommendation when you need it.

**Sense of community is strong.**
You will quickly get to know your fellow students. With enrollment close to 2,400, our campus is truly the size of a small liberal arts college.

**This is Ohio State.**
A degree from The Ohio State University is respected across the nation and throughout the world. Whether you attend classes on the Newark campus or the Columbus campus, you can be assured you are receiving a quality education.

Smaller campuses of The Ohio State University represent 40% of all incoming freshmen, and Ohio State Newark is the largest!

**Connect with Ohio State Newark.**

This is Ohio State Newark

**APPLY** Visit [apply.osu.edu](http://apply.osu.edu) for the admissions application, deadline, and other requirements. We encourage you to apply by the deadline as courses and financial aid are subject to availability.

**Future Freshmen**  Ohio State Newark has open enrollment. If you are an Ohio resident, graduated from a chartered Ohio high school or have a GED, and never attended any other college, you can enroll. All you have to do is complete an admissions application and other requirements.

**Transfer Students**  If you have earned at least a 2.0 GPA (on a 4.0 scale) on your college course work, we will review your academic performance in college to determine your eligibility for admission. Course credit will transfer to Ohio State if the course was taken at a regionally accredited institution, the course was non-remedial, and you received a C- or better.
There is plenty of room to stretch your legs or relax outdoors on the 225-acre campus.

Study, eat lunch, or catch up with friends at outdoor seating areas on McConnell Pointe. While you’re there, take off your shoes and walk on the reflexology path.

On July 3 approximately 10,000 people attend the annual Independence Day concert and fireworks display.

The Table of Contents is a market-style dining facility with a spacious dining area. Students can pick up a coffee or latte at the Bean Counter.
FIRST YEAR EXPERIENCE

Ohio State places special emphasis on each student’s first year. The First Year Experience is designed to help you make a connection with the campus, develop meaningful relationships with new people, and build the foundation for a successful college experience.

Orientation: All freshmen take part in new student orientation. Orientation helps you begin to feel at home on campus and get acquainted with the wide range of academic and social opportunities available. You’ll be ready to return as a Buckeye when the term begins.

Buckeye Book Community: You join over 7,000 new students in the Buckeye Book Community, connecting you to the whole first-year class at The Ohio State University. Students receive a complimentary copy of the selected book at orientation to prepare for discussion in all sorts of academic and co-curricular settings.

Welcome Week: This exciting week includes many programs and experiences to expose students to campus life. Kick back with free entertainment from up-and-coming musicians, variety and comedy shows, and the latest movie blockbusters. Win prizes and collect giveaways all week long!

Convocation: Convocation is your official welcome to Ohio State Newark and a chance to visit with Dean/Director William L. MacDonald, Ph.D., university leaders, and special guests. The event concludes with lunch.

University Survey Class: All new students enroll in University Survey (USAS 100), a one-credit extended orientation class taught by academic advisors. Topics include procedures of the university, degree planning, research skills, and an introduction to the many resources available at Ohio State
Student Activities and Organizations
Each semester there are a variety of programs that supplement the learning atmosphere. Student clubs and organizations represent the most visible and accessible avenue to student involvement. Social, cultural, political, religious, and community service organizations are just a few of the possibilities. Additionally, the Office of Multicultural Affairs hosts a multitude of programs and activities to encourage cooperative relations among diverse groups.

Athletics and Recreation
Student athletes compete in the Ohio Regional Campus Conference in golf; men’s basketball and baseball; and women’s volleyball, basketball, and softball. The campus also offers a variety of intramural and club sports. The athletic facility in Adena Hall features two basketball courts, a cardio room, and weight room. It is open year round and free to students.

Students are eligible for Ohio State athletic tickets to all sports, including Buckeye football. All ticket sales are coordinated out of the ticket office on the Columbus campus. Athletic events on the Newark campus are free to any currently enrolled Ohio State student.

Performing Arts
The University Chorus and Theatre Department at Ohio State Newark provide entertainment to the community. The chorus presents two major concerts each year in addition to performing at various campus events. Theatrical performances are held twice a year in the Black Box Theater in LeFevre Hall. Participation is open to all, making it a true community experience.
ACADEMICS  You’re a Buckeye from day one at Ohio State Newark. All majors can be started at Ohio State Newark, but not all can be completed here. Visit newark.osu.edu/academics/degrees-at-newark to determine if your major can be completed here. Advisors assist with the transition to the Columbus campus.

Associate of Arts:  This flexible blend of courses is designed to fit a broad range of interests and goals. Courses typically compromise the freshman and sophomore years of many baccalaureate programs.

RN to BSN:  Nursing coursework is one year in length, online, and provides flexibility so that students can work and meet other responsibilities. The clinical nursing courses are tailored to registered nurses’ previous experiences and can be completed near home. Other non-nursing courses necessary for the baccalaureate degree may require additional time.

Master’s of Social Work:  Coursework toward the MSW degree is available at Ohio State Newark for students in the three-year, part-time option. Courses are taught by College of Social Work faculty in the evening and occasionally the weekend. Remaining coursework is completed through a combination of Columbus campus courses and field practicums in the community where you live or work.

Pre-Professional Programs:  Pre-professional programs are areas of academic interest for students who intend to enter professional schools after graduation. You can complete one year of pre-health (dentistry, medicine, pharmacy, physical therapy, and veterinary medicine) or pre-law at Ohio State Newark.

Advising  A staff of full-time academic advisors provide information about Ohio State’s academic programs. They work with students throughout the year to assist in scheduling, monitoring academic progress, gaining admission to a major, and transitioning to the Columbus campus.

Your major and class selection help determine if it is necessary to transition to the Columbus campus. Academic advisors assist with the transition.

HONORS  The Honors program promotes intellectual and personal development of high-ability undergraduate students. Along with admission to limited-seating Honors classes and the opportunity to graduate with Honors distinction, students receive priority scheduling, including precedence in study abroad courses; access to free printing in the Honors lounge; and invitations to special outings through the Laurel Collegiate Society, the social club for high-achieving students.
Choose from over 175 of Ohio State’s undergraduate majors – an advantage of being one of the world’s largest universities!

Beyond the Classroom

STUDY ABROAD
Study abroad programming allows you to engage in cross-cultural interactions and enjoy a rewarding educational experience while in another country. Each year Ohio State Newark sponsors two or three trips exclusively for Newark campus students. Students may also apply to any study abroad administered by the Office of International Affairs on the Columbus campus. Scholarships are available to students accepted into study abroad classes to make them more affordable.

RESEARCH
The faculty and administration of Ohio State Newark recognize that the academic experience is not limited to the classroom. Participating departments include English; Evolution, Ecology, and Organismal Biology; History; Music; Political Science; and Psychology. Student research grants of up to $1,500 are available to full-time students and can be utilized for a variety of purposes. Recipients are strongly encouraged to consider presenting their proposal or completed project at the Ohio State Newark Student Research Forum and their completed work at the Denman Undergraduate Research Forum on the Columbus campus.

SERVICE LEARNING
Service learning is a form of experiential education in which students engage in an organized service activity that meets identified community needs and is linked with academic course content in such a way as to enhance understanding of content as well as civic responsibility. Ohio State Newark offers 10 or more service learning courses each year in the following disciplines: Arts and Sciences; Geography; Psychology; Sociology; and Women's, Gender, and Sexuality Studies.
Nathaniel Swigger, Ph.D.,
Assistant Professor
Department of Political Science

“Reality matters.” That is Dr. Nathaniel Swigger’s message to his students. While most tend to believe political science is about opinions and beliefs, the professor encourages students to understand how the world works both in his classroom and through their own research.

A former undergraduate at a small liberal arts school and graduate of a Big Ten university, Swigger endorses the Ohio State Newark experience. He joined the Ohio State Newark faculty in 2009 after completing a bachelor’s degree in history at Trinity University in San Antonio, Texas and a doctoral degree in political science at the University of Illinois.

His course load includes an honors section of “Introduction to American Politics” and “Voters in Elections,” however, Swigger’s favorite class is “Campaign Politics,” an upper division seminar class that focuses on campaign strategies and the dynamics of voter-candidate interactions. It is in this class that students get to discover their interests and design research for themselves. “One of the most rewarding parts of this job has been helping students start their own research agendas,” he said.

For his own research, Swigger is currently partnering with a local domestic violence shelter in a project that is part community outreach, part study. The goal is to educate adolescents on how to build healthy romantic relationships through the implementation of educational programming in local high schools. The researchers hope to discover how adolescents develop relationships, identify their notions of safe and unsafe behavior, and ascertain how best to intervene.

Swigger’s interest in domestic violence stems from prior work on gender norms and political messages in entertainment. Even apolitical programming carries messages about community standards, relationships, and what is and isn’t “normal” in American life. Swigger has studied the effect of social media usage on such values and, more recently, how situational comedies send messages about sexual behavior and responsibility, which may influence attitudes on abortion, access to contraception, and a host of issues related to sexuality.

Even with a full course load and continual research, Swigger is committed to helping students maximize their time on the Newark campus. “Professors at this campus will learn your name. Take advantage of this rapport – meet with your professors and talk to them,” is his advice.

“College is unique to each student,” said Swigger. “In this short time you will be afforded new opportunities to learn and to create both individually and with other people. Revel in those opportunities.”
Ohio State ranks 3rd among U.S. universities for industry-sponsored research.

Career Development  Guiding students and alumni on the journey from selecting a major to starting a career. The Office of Career Development provides the resources and strategies for choosing a college major, developing career plans, finding internships and full-time jobs, and making successful career transitions. Assistance setting and achieving current and future career goals is available both in person and online.

Buckeye OnPACE  OnPACE is a series of self-guided career modules that can assist you in learning more about yourself and choosing a major/career, applying to graduate school, and preparing to enter the workforce as a responsible, global citizen.

Buckeye Careers Network  The Buckeye Careers Network is Ohio State’s university-wide online resource to connect Ohio State students with employers for jobs, internships, co-ops, and career opportunities.

Experiential Learning  There are many great ways to learn what you want from your career, but one of the most important is to commit to at least one internship opportunity during your college career.

Career Fair  Held annually in the spring, the career fair is devoted to effectively connecting area employers with well-qualified candidates at a single event.

Individualized Career Planning  Schedule a one-on-one consultation to address job search strategies, labor market information, resume and cover letter preparation, effective interviewing skills, employers’ expectations, and career assessment.

Financial Aid

To apply for financial aid, complete the Free Application for Federal Student Aid (FAFSA) at FAFSA.gov. List The Ohio State University school code, 003090, in the school section. Priority consideration for merit and need-based scholarships is given to those who apply for autumn semester admission by December 1 and submit the FAFSA by February 15.

Students who submit the FAFSA by the priority date are considered for the maximize aid eligible. Students who do not meet the priority FAFSA date are still considered for federal grants and loans and institutional need-based grants if funds are still available. You can file your FAFSA even if your taxes are not completed using estimates of income. If you will be starting at Ohio State Newark during the spring or summer semesters it is best to submit your FAFSA 10 weeks before the term begins.

Earn money with student employment. Job opportunities are available through both the Federal Work-Study Program and individual departments. Employment on campus can provide valuable work experience and help balance the demands of both work and school.

Financial aid advisors are here to assist you and to make the process as smooth as possible. Stop by the Office of Financial Aid in Hopewell Hall or call 740.366.9364. Questions may be emailed to finaid@newark.osu.edu from an Ohio State-issued email address.

The Next Generation Challenge, a two-year matching funds scholarship campaign, raised nearly $21 million in new scholarships benefiting students at The Ohio State University at Newark.
Ohio State Newark is the place for you.
Visit and see for yourself.

VISIT

Buckeye Visit Days  The best way to get a taste of Buckeye spirit at Ohio State Newark! These programs are offered in the fall through spring and include an admissions overview, departmental staff presentations, and a campus tour.

Information Sessions  If Buckeye Visit Days don’t fit your schedule, then an Information Session is for you. These programs are offered year round and include an admissions overview and campus tour.

All visits require a reservation. Schedule your visit at newark.osu.edu/visit.

OUR CAMPUS

Nature’s timeless beauty and technology’s modern sophistication are the hallmarks of Ohio State Newark’s campus environment.

The John Gilbert Reese Center, winner of the Architectural Portfolio Award in 2004 by American School and University, ties the campus to the community with its cutting-edge classrooms and formal conference facilities.

The John L. and Christine Warner Library and Student Center is a hub of student activity. It features a 25,000 square foot library that, as part of The Ohio State University library system, provides access to millions of books and other library materials.

In the center of campus, McConnell Pointe is ideal for taking in the serene landscaping. The campus is nestled in the 44-mile-long Licking County Trails bike and walking path for those looking to explore the off-campus area.
